Explanation of Terms

Business Distribution Credit - Applied during the winter billing period for non-residential electric heat and/or water heating customers on a qualifying rate.

Bypassable Generation and Transmission Related Component - Charges for purchasing power and delivering it through the transmission system. These charges are avoided when switching to a Certified Retail Electric Service provider.

Cost Recovery Charges - Recovers previously incurred costs, including PUCO-approved Phase-In Recovery Charges OE collects from all customers on behalf of OE Funding, LLC which owns the right to impose and collect such charges.

Customer Charge - Monthly charge that offsets costs for billing, meter reading, equipment, and service line maintenance.

Distribution Related Component - Charge for moving electricity over distribution lines to a service location.

Economic Development Component - Charges related to economic development support.

Estimated Reading - On the months we do not read a meter, we calculate the bill based on past electrical usage.

Kilowatt (KW) - 1,000 watts of electricity.

Kilovolt Amperes (KVA) - Volts times amperes divided by 1,000. Actual measured power used for circuit sizing.

Kilovolt-Ampere Reactive or Kilovar (KVAR) - The portion of electricity that establishes and sustains the electric and magnetic fields of ac equipment. It is used to control voltage on the transmission network.

KWH (Kilowatt Hour) - A unit of measure for electricity usage equal to 1,000 watts used for one hour.

Late Payment Charge - A charge added to the bill on balances owed after the Due Date.

School Distribution Credit - A distribution credit that replaces the former Energy for Education II Program.

Explanation of Terms

Business Distribution Credit - Applied during the winter billing period for non-residential electric heat and/or water heating customers on a qualifying rate.

Bypassable Generation and Transmission Related Component - Charges for purchasing power and delivering it through the transmission system. These charges are avoided when switching to a Certified Retail Electric Service provider.

Cost Recovery Charges - Recovers previously incurred costs, including PUCO-approved Phase-In Recovery Charges OE collects from all customers on behalf of OE Funding, LLC which owns the right to impose and collect such charges.

Customer Charge - Monthly charge that offsets costs for billing, meter reading, equipment, and service line maintenance.

Distribution Related Component - Charge for moving electricity over distribution lines to a service location.

Economic Development Component - Charges related to economic development support.

Estimated Reading - On the months we do not read a meter, we calculate the bill based on past electrical usage.

Kilowatt (KW) - 1,000 watts of electricity.

Kilovolt Amperes (KVA) - Volts times amperes divided by 1,000. Actual measured power used for circuit sizing.

Kilovolt-Ampere Reactive or Kilovar (KVAR) - The portion of electricity that establishes and sustains the electric and magnetic fields of ac equipment. It is used to control voltage on the transmission network.

KWH (Kilowatt Hour) - A unit of measure for electricity usage equal to 1,000 watts used for one hour.

Late Payment Charge - A charge added to the bill on balances owed after the Due Date.

School Distribution Credit - A distribution credit that replaces the former Energy for Education II Program.

Explanation of Terms

Business Distribution Credit - Applied during the winter billing period for non-residential electric heat and/or water heating customers on a qualifying rate.

Bypassable Generation and Transmission Related Component - Charges for purchasing power and delivering it through the transmission system. These charges are avoided when switching to a Certified Retail Electric Service provider.

Cost Recovery Charges - Recovers previously incurred costs, including PUCO-approved Phase-In Recovery Charges OE collects from all customers on behalf of OE Funding, LLC which owns the right to impose and collect such charges.

Customer Charge - Monthly charge that offsets costs for billing, meter reading, equipment, and service line maintenance.

Distribution Related Component - Charge for moving electricity over distribution lines to a service location.

Economic Development Component - Charges related to economic development support.

Estimated Reading - On the months we do not read a meter, we calculate the bill based on past electrical usage.

Kilowatt (KW) - 1,000 watts of electricity.

Kilovolt Ampères (KVA) - Volts times amperes divided by 1,000. Actual measured power used for circuit sizing.

Kilovolt-Ampères Reactive or Kilovar (KVAR) - The portion of electricity that establishes and sustains the electric and magnetic fields of ac equipment. It is used to control voltage on the transmission network.

KWH (Kilowatt Hour) - A unit of measure for electricity usage equal to 1,000 watts used for one hour.

Late Payment Charge - A charge added to the bill on balances owed after the Due Date.

School Distribution Credit - A distribution credit that replaces the former Energy for Education II Program.

Explanation of Terms

Business Distribution Credit - Applied during the winter billing period for non-residential electric heat and/or water heating customers on a qualifying rate.

Bypassable Generation and Transmission Related Component - Charges for purchasing power and delivering it through the transmission system. These charges are avoided when switching to a Certified Retail Electric Service provider.

Cost Recovery Charges - Recovers previously incurred costs, including PUCO-approved Phase-In Recovery Charges CEI collects from all customers on behalf of CEI Funding, LLC which owns the right to impose and collect such charges.

Customer Charge - Monthly charge that offsets costs for billing, meter reading, equipment, and service line maintenance.

Distribution Related Component - Charge for moving electricity over distribution lines to a service location.

Economic Development Component - Charges related to economic development support.

Estimated Reading - On the months we do not read a meter, we calculate the bill based on past electrical usage.

Kilovolt Amperes (KVA) - Volts times amperes divided by 1,000. Actual measured power used for circuit sizing.

Kilovolt-Ampères Reactive or kilovar (KVAR) - The portion of electricity that establishes and sustains the electric and magnetic fields of ac equipment. It is used to control voltage on the transmission network.

Kilowatt (KW) - Unit of electric power representing a rate of consumption equivalent to 1,000 watts.

KWH (Kilowatt Hour) - A unit of measure for electricity usage equal to 1,000 watts used for one hour.

Late Payment Charge - A charge added to the bill on balances owed after the Due Date.

School Distribution Credit - A distribution credit that replaces the former Energy for Education II Program.
